

King's College
The British School of Panama

Official Communication

Following the temporary suspension of the construction work of the new campus for King's College, The British School of Panama; the organisation wishes to affirm its trust in a project that has always adhered to the necessary and current regulations and has processed all the permissions, permits and approvals established by the law.

As a responsible organisation, committed to education, respectful of the local fauna and environment, as well as the values of the local residents, we express our entire disposition to the local authorities to maintain open and fluid communication about the processes carried out for the construction of the new school premises.

Since the establishment of our school to Panama in 2012, King's Group has proved its determination in leaving a positive footprint in the country. With this new project, we make public and reiterate our commitment to the Panamanian community and the future of the country, especially to its children and young people.

From King's College Panama we have had various contacts with the local community and have always maintained an open position that evidences our strict adherence to local legislations for the correct execution of this construction work.

Since 2014, the school has provided public information to the local residents, as well as those interested in learning more about the project. This includes meetings with 'Mi Ambiente' and with 'La Junta Comunal', as well as newspaper publications, the distribution of leaflets, surveys and interviews with neighbours living in the area among others.
